

SAT MATH PREP 360°

Dimitris Charalampidis

Comprehensive Cyclical SAT Math Prep Program

COMPLETE COVERAGE OF THE CURRICULUM

With **SAT Math Prep 360°**, students achieve **complete coverage of the entire SAT Math curriculum**.

From **Heart of Algebra** and **Problem Solving & Data Analysis** to **Advanced Math**, **Geometry**, and **Trigonometry**.

Each unit is **carefully structured** with clear theory, targeted exercises, and past-paper practice to ensure deep understanding and mastery.

The program's comprehensive design leads to **full readiness for the official SAT**, providing confidence that **no topic is left out**

CYCLICAL STRUCTURE

The **SAT Math Prep 360°** program follows a **fully cyclical structure**.

Each lesson is part of a **15-topic cycle** that repeats continuously.

This means **no student ever misses material**—no matter when they join.

They can immediately attend the current week's class and complete the full cycle with consistency and **complete coverage**.

The cyclical approach ensures a **steady pace of progress**, easy scheduling, and **constant exposure to the entire curriculum** right up to exam day.

EXTENSIVE MATERIALS

SAT Math Prep 360° comes with **carefully designed notes and exercises**, enhanced by **high-quality instructional videos**.

The material includes **clear theory**, **past papers**, **detailed solutions**, and **targeted practice tests**, all organized into units to ensure **complete curriculum coverage** and systematic practice.

This is a **comprehensive educational resource**, the result of years of development and ongoing refinement, giving students **everything they need for success on the SAT Math**.

VIDEO SOLUTIONS & PERSONALIZED FEEDBACK

SMALL GROUPS (UP TO 6 STUDENTS)

TIMELINE 2–3 MONTHS

Through a **well-structured system of video solutions and personalized feedback**, every student receives **clear comments and targeted improvement suggestions**, focusing on their individual areas of attention.

This approach ensures **genuine understanding** and **steady performance growth** all the way to exam day.

Classes are held in **small groups of up to 6 students**, combining **individual guidance** with the benefits of collaborative learning.

The limited number of participants ensures **active engagement**, faster resolution of questions, and **meaningful interaction with the instructor**.

Each student enjoys **the best of both worlds: personalized support** and **dynamic group interaction** that enhance understanding and build confidence.

The **SAT Math Prep 360°** program is completed over a **2–3 month period**, providing ample time for **full curriculum coverage** and meaningful practice.

It consists of **10–12 themed sessions**, each lasting **1.5 hours**.

This structure ensures **steady progress**, avoids unnecessary pressure, and delivers **comprehensive preparation** for the official SAT Math test.

Dynamic pricing tailored to the group

The price of each lesson is **calculated individually**, depending on the number of participants, and ranges from **€45 to €90 per 1.5-hour session**.

Because **SAT Math Prep 360°** follows a **cyclical structure**, new students can join at any time **without missing any unit**. Pricing is **recalculated after every single session** to reflect the group's actual composition and **keep the system fair for everyone**.

With this model:

- **Each student pays fairly and proportionally**, based on the current group size.
 - **Flexibility of enrollment** is maintained throughout the cycle.
- **Consistently high teaching standards and complete curriculum coverage** are guaranteed, with no compromise on quality.

This approach combines **transparency, flexibility, and real value**, delivering **premium SAT Math instruction** at a cost tailored to each group's needs.

For those seeking stability and maximum savings, a **prepaid package of 15 lessons** is available at a **special rate of €50 per lesson**.
